

**A Memo from WINNER and LISTEN Magazines
55 W. Oak Ridge Drive • Hagerstown • MD 21740**

Dear Teacher,

As a teacher of children and not just subject matter, we appreciate your search for effective tools. It has been said that the value of any tool is determined by the task it accomplishes.

In the context of our society where, as President Bush said, "Individual drug use is a personal tragedy, and it has become a National crisis.", we are thankful to acquaint you with the Listen and Winner anti-drug journals, and their accompanying teacher's guides.

The current September 2002 issues are on this CD to help you start the 2002-2003 school year off right. A pre-test is included and if used and compared with the post-test made available in April, will demonstrate the effectiveness of Listen and/or Winner in your classroom.

This is copyrighted material. As a service we have provided this in a format for you to print off and use in your classes with your students. It is not license for widespread duplication without express, written permission from us.

Listen and Winner can be ordered with Safe and Drug-free Schools money. Also, as a 501(c)3 non-profit status, businesses in your area can sponsor Listen and Winner for your schools and receive 100% tax deduction for doing so.

Please feel free to contact us with any questions you may have regarding classroom use, ordering, or help in securing funding.

Respectfully,

Ron Clark, National Director
Listen-Winner Community Crusade Against Drugs
